What does this mean for patients? You may see a new face if you need care after hours. A physician from one of these practices will be available to established patients that have an urgent medical need from 7pm to 7am, including management of labor and delivery. Midwifery services will not be impacted by this change. We remain committed to our collaborative care model with midwifery and physicians providing high level and comprehensive care to the women of eastern North Carolina.</b></p>
